4. The Government had provided extra finance to deal with the County's pot hole problems.

Councillor Sharp questioned Councillor Smith over details of Shropshire Council's funding plans that had been presented at a recent SALC Committee meeting. It appeared that a whole range of services could be withdrawn if agreement could not be reached by September for Parish and Town Councils to take responsibility for them. It seemed to include items such as highway maintenance.

In response Councillor Jones stated that Shropshire Council were looking at different ways in which services could be delivered and would be discussing these with town and parish councils. There was a need for Shropshire Council to have overall responsibility for statutory services but other service might have to be withdrawn if alternative providers could not be identified.
